

November 25, 2007

Dear Business Partner,

Laufer Group International is a validated participant in the U.S. Customs-Trade Partnership Against Terrorism (C-TPAT) program. This is a joint government-industry initiative, primarily directed at companies who partake in the international trade and transportation business.

C-TPAT enhances the supply chain information to enable and strengthen U.S. border security. As a participant, our efforts are constant and ongoing. One of our primary focuses is to identify risks and maintain security integrity in the supply chain process.

As a service provider to Laufer Group International, you play an important role in our commitment to the C-TPAT program. We encourage all of our vendors to participate in the program, and require you to maintain a high level of security awareness. If you are already a member of the C-TPAT program, please provide your SVI number for our records.

If you are not a C-TPAT participant, we require you to complete the attached questionnaire.

Please visit www.cbp.gov to find out how you can become a member and the requirements of the C-TPAT program.

Sincerely,

Martin Karczewski
Director, Operations & Quality
Laufer Group International – New York
